

Gel technology to store SOLAR energy

Months
60
Warranty*

Check instructions before use.

CHARGING PARAMETERS: Charge with Constant Voltage (at 27°C)
 Current Limit : 13.8V-13.8V
 Standby Use : 14.0V-14.0V
 Cycle Use : 14.0V-14.0V
 Maximum Limit Current : 15.0A
 Minimum Limit Current : 7.5A

SEALED LEAD-ACID BATTERY

Type	Volts	Capacity
RSGL 75	12V	75Ah

CAUTION
 Be careful of the following:
 • Short circuiting battery terminals
 • Disposing the battery into open flame
 • Charging in a sealed container
 • Mechanical shocks

If eyes exposed to electrolyte liquid, wash immediately with plenty of water.

After use, return to Exide for auto recycling of lead.
